

# Premium Publisher Advertising

Reach your target audiences on their favorite sites with MultiVu's Premium Publisher Advertising. If you'd like to target readers on sites like **The New York Times**, **NPR**, **Vogue**, **Sports Illustrated**, and many more like them, this is the solution for you.

## How does it work?

We home in on your audience based on the subject of your content and where readers are most likely to interact with similar stories. Then, we'll share your content via display ads only on those premium sites, right where your perfect audience most loves to read, click, and share. You tell us where you want that traffic to go – your website, product page, or to supplement the reach of a **Multichannel News Release**.

## Industry Verticals Available
