Sen Zhuang MD, PhD
Vice President of Clinical Oncology Research, Janssen Research & Development

Sen Zhuang MD, PhD is currently Vice President of Clinical Oncology Research at Janssen R&D, Johnson & Johnson. He is the Head of Hematology Development responsible for global clinical development of ibrutinib, daratumumab, BCMA-CAR-T, and other emerging hematologic compounds. Sen has broad and deep global drug development experiences ranging from discovery, preclinical, translational, to early and late stage development. He was responsible for design and execution for over 40 registration studies covering solid tumors such as breast cancer, ovarian cancer, soft tissue sarcoma, prostate cancer, and hematologic diseases such as chronic lymphocytic leukemia, follicular lymphoma, diffuse large B cell lymphoma, multiple myeloma, sickle cell anemia, and others. He oversaw 7 FDA breakthrough designations and over 20 global (FDA and EMA) NDAs/BLAs submissions and approvals.

Sen obtained his MD degree from Sun Yat-Sen University of Medical Sciences in Guangzhou, China. He earned a PhD degree in Molecular and Cellular Pharmacology from University of Miami School of Medicine in Miami, Florida. He received his residency training in Internal Medicine from Albert Einstein Medical College Long Island campus (Long Island Jewish Medical Center). He completed his Medical Oncology and Hematology fellowship in National Cancer Institute (NCI) and National Heart Lung and Blood Institute (NHLBI) in Bethesda, Maryland. He is board certified in Internal Medicine, Medical Oncology, and Hematology.

Sen is an active member of ASCO (American Society of Clinical Oncology) and ASH (American Society of Hematology) and a lifetime member and Committee Chair of CAHON (Chinese American Hematologists and Oncologists Network). He published over 50 articles and abstracts; received multiple awards including ASCO Foundation Merit Award, Young Investigator Travel Award, Standard of Leadership Awards and Johnson Medal for scientific accomplishments.
