

GENERAC[®]

Generac—Power for Every Purpose

Generac has been a leading designer and manufacturer of a wide range of generators and other engine powered products since 1959. Generac's products are available through a broad network of independent dealers, retailers, wholesalers and equipment rental companies.

Complete Range of Products

Residential - Our best-selling Guardian series generators are a back-up system that covers your whole house, your core needs or just the essentials.

Commercial - Generac revolutionized the commercial generator market with the first standby generators powerful enough to back your entire business without the cost of expensive configured systems.

Industrial - Our complete range of industrial solutions provides reliable power to hospitals, data centers, 911 call centers and more, even in the most severe weather situations.

RV - These units are powered by Generac's proven OHVI[®] engine and engineered specifically for the unique needs of recreational vehicles. Generac RV generators perform in all altitudes, under all conditions, for worry-free travels.

Portable - Generac's portable power options let you take power with you wherever you go—up to 17, 500 watt portable options.

Power Washers - Easy access pumps and ergonomic spray handles accompany our trusted engines—the most pressure in the business.

Commitment to Sustainability Generac is committed to developing a long term vision that promotes environmentally responsible products, processes, and partnerships. We offer product options that allow our customers to shrink their ecological footprint when backup energy use is required. Manufacturing processes strive to reduce the amount of materials used and emissions produced. We partner with organizations and stakeholders to further the development of sustainable technologies.
