

# Residential Garage Doors

No one combines safety, style and performance better than Wayne Dalton®.

Because of its highly visible size and position, few things can improve your home's curb appeal more than the right garage door. And, no garage door offers you more appealing options than Wayne Dalton. You have a choice of the colors, styles, windows and accessories that best complement your home.

Our steel doors are virtually maintenance-free and will hold their stylish good looks for years without cracking, splitting or rusting. Our steel doors with a fiberglass surface simulate the beauty of wood without the maintenance that wood requires.

Whether you're building or remodeling, you can't do better than Wayne Dalton.

## 7400-7412 MODELS

These wood doors feature six distinctive patterns that speak of skilled craftsmanship and caring hands. Choose from a multitude of facing options including a rustic rough sawn design or the elegant styling of a tongue and groove medley to create the door you have always wanted. Insulated for noise and temperature control, these flush doors with their trim overlay bring back the carriage style door look in a modern sectional garage door.

7400 DelMar

7401 Preakness

7402 Churchill

7410 Saratoga

7411 Belmont

7412 Derby

## 7420-7421 MODELS

The difference is in the details. Both the 7420 and 7421 feature a unique continuous vertical hemlock raised panel exterior with hemlock rails and stiles. Both models offer an upgrade to Western Red Cedar.

7420 Cabriolet

7421 Brougham

For 7400 series, all images shown represent typical single car door applications. Windows shown are optional. See full brochure for all available facing, window and decorative hardware choices. Consult dealer for details.

## 7100 MODELS

The 7100 models feature authentic stile and rail construction on a hemlock frame. Models 7101 through 7104 offer paint grade plywood surfaces while the 7105 offers a hemlock raised panel surface that can be stained or primed. The 7105 also offers an option to upgrade to Western Red Cedar.

7104 Narrow Panel

7105 Wide Panel

7105 Narrow Panel

For 7100 series, all images shown represent typical single car door applications. Windows shown are optional. See full brochure for all available facing, window and decorative hardware choices. Consult dealer for details.

## 7000 MODELS

The 7000 models display stylish yet simple trim packages on flush door surfaces. All models feature two-sided smooth door sections on a sturdy hemlock frame with an insulated core. Models 7000 through 7003 are finished with hardboard interior and exterior. These doors also feature an optional upgrade to plywood for the exterior only. The model 7004 features a smooth plywood interior and a  $\frac{5}{8}$ " T1-11 grooved plywood exterior.

7000 Heritage A

7001 Heritage B

7002 Heritage C

7003 Heritage D

7004 Heritage E

For 7000 series, all images shown represent typical single car door applications. These doors are not customizable and are not available in all areas. Consult dealer for all other details on the wood door series.

People will admire your beautiful new wood garage door – so don’t tell them it’s not wood! Model 9800 uses Accugrain™ advanced fiberglass molding technology from Therma-Tru™. Made with a rugged steel understructure, it won’t warp, crack or rot like wood – won’t dent or rust like steel can. Each 9800 door features pinch-resistant panels. Made with foamed-in-place polyurethane insulation to reduce street noise and help with year-round comfort.

A panoramic look for contemporary homes with beautiful views inside and out. Full-view garage doors are designed to complement your home's clean, modern look. These doors are constructed with a rugged, anodized aluminum frame with your choice of several glass options, including tempered safety glass and acrylic, in a wide variety of tints and styles. They are the perfect enhancement to your home's glass expanses and patios — beautifully infusing indoor and outdoor spaces.

The model 8700 vinyl garage door is engineered to be maintenance-free and provide an elegant look that will last a lifetime. It won't rust, fade, crack, or dent. It is the ultimate door for easy-care living.

- The model 8700 comes in two panel designs that offer the timeless design of freshly painted hardwood.
- This door has full PVC color construction. This means scratches will never show because the color goes all the way through the material.
- The UV-Resin used in the door's construction contains special polymers that protect the door sections from the sun's harmful ultraviolet rays.
- R-10 polyurethane insulation is permanently bonded to the vinyl skin for thermal efficiency, durability and added rigidity.
- Twin 20-gauge steel C-channels run full length of each panel and are anchored to interior steel stiles for strength.
- Recommended for coastal regions for its resistance to salt air and sand.

# Performance and Safety Features

The following is available on most models in the 9000 Series

Door panels are engineered with a pinch-resistant design to prevent finger injuries while the door is closing.

Many of Wayne Dalton's most popular garage doors now have wind load-rated reinforcements. These doors comply with various approval agencies, including: the Florida Building Code, TDI (Texas Department of Insurance) and Miami-Dade County (FL).

The TorqueMaster® Plus counterbalance seals springs safely inside a steel tube to prevent accidental release of tension that could cause injury.

SilentGlide™ rollers have nylon wheels and solid steel shafts to provide years of smooth, quiet, dependable service.

Low-profile hinges provide maximum strength and stability between sections. Factory-installed for proper alignment and smoother operation.

The bulb-shaped bottom seal remains flexible even in extreme cold to help keep the bad weather outside.

Tamper-resistant safety bottom brackets help avoid possible injury by preventing accidental loosening when the counterbalance cables are under tension.

# Garage Door Openers

Wayne Dalton and Genie are committed to offering products that provide safety, security and convenience to our customers. Genie products are backed by our commitment to excellence in innovative products and customer care.

\*Horsepower Comparable (HPc) designates that this garage door opener meets Genie's lifting force specification for 1/2 or 3/4 or 1 horsepower garage door openers. Power Plus designates that the opener exceeds the specification.

\*\* +/-0.5 inches per second

+ Limited, non-transferable warranty. See owner's manual for specifics.

# Decorative Hardware

Wayne Dalton's decorative hardware collections bring a distinctive, yet subtle, touch of individuality to your garage door. People will notice your attention to detail and your striking good taste. Every piece is made from black powder coated steel with a handle-hammered look. Additional accent pieces are available to match or complement each collection.

## THE EURO COLLECTIONS

**Fleur-de-Lis**  
This stylized version of the lily is the traditional symbol of the French monarchy.

**Barcelona**  
The classic fleur design shows the neo-Moorish influence of Spain.

**Spear**  
The spade tip design reflects the profile of Indian architecture.

## THE AMERICAN COLLECTIONS

**Aspen**  
The distinctive shape of the Aspen leaf gives the tip a natural feel.

**Conifer**  
The grace and elegance of mountain pines can be seen in these strap tips.

**Arrow**  
The Arrow strap was inspired by the geometric designs of the Navajo.

Additional Decorative Hardware options are available. See dealer for details.

# Garage Door Design Center

## Garage Door Design Center

[www.Wayne-Dalton.com](http://www.Wayne-Dalton.com)

Go to Wayne-Dalton.com today and click on Design Center. Here you can upload a photo of your home and experiment with panel designs, color options, window styles and hardware designs. Instant curb appeal awaits with just the click of your mouse! Then print the results and go online to find your closest Wayne Dalton dealer.

## How to measure for your Wayne Dalton Garage Door

- A Exact finished opening width
- B Exact finished opening height
- C Sideroom – distance from the edge of the door opening to any wall or obstruction
- D Headroom – distance from the top of the finished door opening to the ceiling or underside of joists
- E Room depth – distance from the finished door opening to the back point where hardware or the opener will extend
