We're changing the face of sleep

Wisp delivers a combination of comfort, performance and, yes, style.

Compact design for a natural fit

With its distinctive styling and minimal headgear – and no forehead pad – Wisp delivers a new level of style in nasal masks.

Contemporary frame options to complement your style

With multiple frame options, you can find the look and feel that's right for you. There's an attractive clear frame and a reversible fabric

frame – one side is soft suedette, the other side is silky sateen.

Peak performance

Our distinct tip-of-the-nose cushion design makes minimal contact while providing a superior seal. Wisp delivers the performance you expect from a leading nasal mask.

It just fits

Wisp is designed for ease of use and the fit that's right for you. It includes three interchangeable cushion sizes – petite, small/medium and large – so you can find just the right match for your facial contours.

Small wonder

Wisp's compact, stable design provides an open field of vision for a feeling of independence in bed, delivering an exceptional experience for reading, using a computer or wearing glasses.

Wisp. Performance has a new style.

Every Wisp includes resupply service, ask about Fit for Life today.

The Fit for Life solution is just one more way we are working with you as Allies in Better Sleep and Breathing.
