

MANUFACTURING: Growing Production Across the U.S.

Our members' investment keeps growing in America, creating more jobs and increasing vehicle production* in the U.S. The production of these vehicles, their engines, transmissions, and other parts and components, takes place at our members' 25 manufacturing facilities in America.

62 percent of the vehicles our members sold in the U.S. last year were made here - that's **3.9 million** American-made cars and light duty trucks.

Our members have 25 manufacturing facilities in 12 states:

* Vehicles built in the United States using domestic and globally sourced parts.

About Global Automakers | The Association of Global Automakers represents international motor vehicle manufacturers, original equipment suppliers, and other automotive-related trade associations. Global Automakers' companies have invested \$46 billion in U.S.-based production facilities, have a combined domestic production capacity of 4.5 million vehicles, directly employ more than 90,000 Americans, and create hundreds of thousands of jobs for Americans through dealers and suppliers. Global Automakers works with industry leaders, legislators, regulators, and other stakeholders in the United States to create public policies that improve motor vehicle safety, encourage technological innovation and protect our planet. Our goal is to foster an open and competitive automotive marketplace that encourages investment, job growth, and development of vehicles that can enhance Americans' quality of life.
