

How to Make your Home the Cat's Meow

For many cat owners, their love for their cat is often at odds with their dislike of litter box odor. To celebrate new Tidy Cats® with Glade™ Tough Odor Solutions, an innovative new cat litter, the experts at Tidy Cats® along with cat lover and home expert Jillian Harris have come up with a few simple tips to help cat owners battle tough litter box odor and keep a welcoming home – for two- and four-legged guests.

Tips for your Litter Box Area:

- **Location, Location, Location:** Allow accessibility and provide privacy by keeping your cats' litter box in an area that's easy to get to and lets them do their business.
- **Scoop Daily, Change Weekly:** Be sure to scoop waste daily and change the litter as often as the packaging suggests—typically, once a week. Always check the packaging for specifics on frequency.
- **Knock Out Offensive Odors:** If you have tough litter box odors, you can try new Tidy Cats® with Glade™ Tough Odor Solutions. It's an innovative new solution that combines the odor neutralizing power of two trusted brands.

Keeping a Welcoming Home for Cats & Guests:

- **Keep Kitty-Specific Spaces:** Organize your cat's things like you would your own. Keep designated areas for your cat's food, litter box and toys. Using fun, decorative pieces can help maintain a home's look and feel, while also keeping things neat and organized.
- **Scratch Station:** Give your cats something to scratch. If you don't, they'll find a place themselves—like the side of your couch or the legs of your dining room table!
- **Tidy Time:** Every day, give yourself 15 minutes (time yourself too!) to run around the house and tidy up as much as you can. This will help you keep up with your chores to maintain a clean and welcoming household.

Tidy Cats® brand cat litter is designed for homes with multiple cats and is specially formulated to control odor and help keep homes smelling fresh and clean. New Tidy Cats® with Glade™ Tough Odor Solutions is available in 14 and 20 lb. jugs, a 23 lb. recyclable corrugated box, and a 35 lb. pail. To learn more, visit www.TidyCats.com.
