

EBEL WAVE Stainless steel and diamonds

EBEL INTRODUCES THE NEW WAVE IN STAINLESS STEEL AND DIAMONDS

Biel/Bienne, 13 October 2014/PR Newswire - EBEL is proud to introduce the latest addition to its reimagined Wave collection – a sensuous, fluid style fashioned for women in stainless steel adorned by diamonds.

Introduced in July this year, the new Wave collection reenergized an iconic EBEL timepiece with a fresh, more contemporary look and feel. Originally launched in 1977 as the Sport Classic, the wave bracelet became an instantly recognizable EBEL trademark. While retaining the legendary DNA of the original design, the new EBEL Wave has been reimagined for the next generation with bolder proportions and more sharply defined lines. To design aficionados, it is a classic. To those simply seeking a sleek, luxurious timepiece, it is equally appealing.

Subtly refreshed through the enhancement of its signature design elements, this new EBEL Wave model is sensuous and alluringly feminine. The DNA of the brand reveals itself in the flexible, sculptured wave-shaped links. Sumptuous glamour is introduced through its bezel shimmering with 58 sparkling diamonds. The lustrous white mother-of-pearl dial is exquisitely detailed with 8 diamond markers, 3 applied indexes and a polished EBEL symbol at 12.00. The stainless steel case and bracelet feature alternating brushed and polished surfaces, creating an elegant metallic finish.

Making an easy transition from day to evening wear, this boldly feminine new women's EBEL Wave model in stainless steel and diamonds is both versatile and practical – a modern icon that defies trends with timeless, distinctive style.

THE WAVE REIMAGINED. UNDENIABLY EBEL.

A passion for innovation and excellence in watch design has always been at the heart of the EBEL brand, founded by husband and wife Eugene Blum and Alice Levy, in La Chaux-de-Fonds, Switzerland in 1911. Since its inception, EBEL has remained true to their core values, manufacturing fine Swiss watches that marry technical expertise and distinctive style. Renowned today for its iconic bracelet design with signature wave-shaped links, EBEL continues to create timepieces that embody luxury and contemporary elegance with subtle, yet exquisite detail.
