

A Partnership Through Time

EBEL WAVE Steel and Rose Gold Lady & Gent

Biel/Bienne, 15 December 2014/PR Newswire – Romance is at the heart of the EBEL brand. The founders were husband and wife – partners in life who brought their personal love story to the shared endeavor of fine Swiss watchmaking. The balance of their masculine and feminine values continues to reveal itself in the singular blend of elegant design and technical expertise that distinguishes all EBEL watches.

Valentine’s Day is the time of year we traditionally honor love, presenting a special gift or card or token of devotion to our beloved. For 2015, EBEL offers the ultimate gift - the EBEL Wave in stainless steel and red gold, for men and women. Timepieces can be wonderful symbols of memories created over minutes, days and years, of a couple forever joined together in time. His and hers watches, symbolizing a partnership in life, make a very romantic gift, paired in time and in design.

The bracelet with its wave-shaped links, each one rolling into the next, also evokes a sense of continuum and timelessness, like the thread of memories in a relationship, or the endless flow of waves from the ocean’s rhythmic tide. The color red has always been synonymous with romance, love and passion, and the rich 18K red gold in the EBEL Wave reflects that atmosphere, creating an incredibly striking contrast to the cool stainless steel. The EBEL Wave Lady is fashioned with a 30mm case, and an ultra-feminine mother-of-pearl dial set with 8 diamond markers, while the men’s model sports a 40mm case and a silver galvanic dial. Dynamic and stylish individually, these watches, like true romantic partners, come alive in the presence of the other.

Timeless togetherness is perfectly symbolized through the partnership of these EBEL Wave watches.

THE WAVE REIMAGINED. UNDENIABLY EBEL.

EBEL

EBEL

EBEL's success has been built upon the perfect fusion of technical excellence and a passion for aesthetically daring and timeless, distinctive design. The Wave reimagined is undeniably EBEL. A passion for innovation and excellence in watch design has always been at the heart of the EBEL brand. EBEL was founded by husband and wife Eugene Blum and Alice Levy, in La Chaux-de-Fonds, Switzerland in 1911. Since its inception, EBEL has remained true to their core values, manufacturing fine Swiss watches that marry technical expertise and distinctive style. Renowned today for its iconic bracelet design with signature wave-shaped links, EBEL continues to create timepieces that embody luxury and contemporary elegance with subtle, yet exquisite detail.

Movado Group, Inc. designs, manufactures, and distributes Movado, EBEL, Concord, HUGO BOSS, Lacoste, Juicy Couture, Tommy Hilfiger, and Scuderia Ferrari brand watches worldwide.
