

Steven S. Chung, MD

Executive Director and Chair at the Neuroscience Institute at the Banner University Medical Center in Phoenix, Arizona

Dr. Chung is Executive Director and Program Chair of the Neuroscience Institute at the Banner University Medical Center. He is also Director of the Epilepsy Program at the same institute. Prior to joining Banner, he was professor of neurology at the Barrow Neurological Institute in Phoenix, where he also served as Director of Clinical Epilepsy Research, Epilepsy Monitoring Unit, and Epilepsy Fellowship Program.

Dr. Chung earned his medical degree at the Northwestern University School of Medicine in Chicago, Illinois. After graduating, he completed his residency in neurology at the University of California, San Francisco. His fellowships in clinical electrophysiology and epilepsy also were conducted at the University of California, San Francisco. His honors and awards include American Academy of Neurology Education & Research

Foundation Award, University of California Faculty Teaching Award, BNI Faculty Teaching Awards, Best Doctors in America in 2005-2015, and American Academy of Neurology Teacher Award. He is board certified in Neurology (ABPN), Clinical Neurophysiology Specialty (ABPN), American Board of Clinical Neurophysiology (Epilepsy Monitoring Track), and Epilepsy Board.

Dr. Chung has been Principal Investigator for research projects concerning pharmacological treatment for epilepsy, cognitive neurophysiological effects of antiepileptic medications, effects of neuronal stimulation in epilepsy patients, and high-resolution electroencephalography as well as surgical treatment of seizures. He has authored or coauthored many articles on these and related topics, which are published in peer-reviewed scientific journals such as *Neurology*, *Epilepsia*, *Epilepsy Research*, *Epilepsy and Behavior*, *Seizure*, *Clinical Neurophysiology*, *CNS Drugs*, and *Clinical Pharmacology*. He has also conducted numerous invited lectures, presentations, and seminars in his field. He is a member of the Association of University Professors of Neurology, the American Clinical Neurophysiology Society, the American Academy of Neurology (AAN), and the American Epilepsy Society.
