

How Exporting LNG Helps American Manufacturers

Exporting LNG creates more natural gas production. And more natural gas production means more natural gas liquids (NGLs), an important component in manufacturing plastics, chemicals and more.

How LNG Exports Benefit Manufacturers

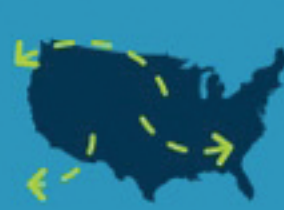

**Affordable
NGL Prices**

**703,000+
New Jobs**

**\$91+ Billion
in Industry Output**

**U.S. Expected to be
Net Exporter by 2018**

**\$137 Billion in
New Project Investment**

**Global Carbon
Reduction**
