

CorkWood™ – The Perfect Kitchen Partner

We demand more from our kitchen—in performance and looks—than any other room in the house. That's why CorkWood, TORLYS latest innovation in cork flooring, delivers the beauty of wood, the durability of laminate and the wonderful comfort of cork! CorkWood features the grain character of wood in a variety of colours, making it a perfect match for any decor. If you are thinking about a kitchen renovation, we've created some custom designs featuring CorkWood for inspiration.

CorkWood Flooring: Traditional Elegance

Hello, tall, dark and handsome! Try the combination of CorkWood with rich cabinet tones, dramatic granite and copper accents such as a hammered copper sink. This design can extend from a traditional dining or living room, or work in a standalone kitchen. The pairing of this style with CorkWood Designer's Briarwood Walnut maintains the rich deep tones of the cabinetry. An alternative option would be CorkWood Elite's Windemere Oak to complement a warm honey cabinet choice.

CorkWood Flooring: Shades of Grey

Over the past few years, grey has become one the most popular kitchen neutrals. It can add a vintage touch to a country kitchen but also work in a sleek modern space. Try designing your kitchen by pairing grey with shades of cream and use texture as a key design element. The texture and grain patterns of CorkWood flooring make it a perfect choice to complete this look. Options include CorkWood Designer's Port Royal Walnut for a classic look, or to emphasize the vintage quality, CorkWood Designer's Fairwinds Oak is an ideal choice.
