KICHLER

DECORATIVE LIGHTING

Modern Farmhouse Supplement | 2018

We Love the Modern Farmhouse Look

With so many styles to choose from, Kichler makes it easy to bring the popular modern farmhouse trend to your home. Weathered wood tones, wrought iron hardware and organic shapes come together to create contemporary pieces with a cozy feel.

Go to **Kichler.com/farmhouse** for ideas on how to combine these lighting essentials with other farmhouse-inspired décor, and you'll create a room that's not only laid-back and livable, but also fresh and inviting.

Bring a cozy feel to your space.

Warm, weathered and inviting, today's modern farmhouse look is far from the past, yet fully inspired by it. Whether you want an entire home filled with a farmhouse feel, or just a touch of the look, consider these key elements when designing your space.

1

EXPOSED BEAMS
Add this barn inspired element to a room, over a fireplace or surrounding a doorway.

2

RUSTIC WOOD
Incorporate reclaimed or vintage-looking wood in furniture, cabinetry, accent items or floors.

3

NEUTRAL WALLS
Choose crisp white or soft creams as a clean backdrop.

4

AGED OR VINTAGE-INSPIRED PIECES
Worn and weathered pieces are key elements.

5

PROMINENT METALS
Wrought iron, industrial gears and grommets, wire, mesh or mixed metals serve as a focal point.

The farmhouse trend isn't one-size-fits-all.

Personalize the look to match your style with these variations:

Classic Modern
Start with bright white walls. Then bring in contrasting tiles and dark stained woods, black frames or brass accents. *(See our Jenson, Peyton & Telan families.)*

French
Think of a French café and let the look guide the details. Pastels, white enamels, scroll work and tin accessories. *(See our Montauk family.)*

Urban
Less is more. Use neutral colors simple textures and minimal accessories. *(See our Marquee family.)*

BEHIND THE DESIGN

Shaker style cabinetry, stainless appliances, wood flooring and white backsplashes lead as some of the most requested components in today's kitchen remodels. These selections fit perfectly into the Modern Farmhouse trend.

Based on results from the 2018 US Houzz Kitchen Trends Study

Peyton

The popular industrial-inspired cage look gets a refreshing update with the Peyton collection. Squared edges and lines, in a blend of whitewashed wood tones as well as polished and satin nickel metals, create a style that's soft and modern.

Marquee

Who says rustic can't be refined? Marquee brings a contemporary spin to a farmhouse staple, mixing clean, simple lines with a smooth wood-tone finish. Clear globes add a polished finishing touch to the look.

Montauk

Vintage milk cans in a creamy blue-white hue provide the inspiration for the Montauk collection's simple style. Hang as a statement piece over a table or use several for added farmhouse flair: the distinctive cool blue works beautifully with subdued decorating color palettes.

Telan

Finish: Whitewashed Faux Wood with Polished Nickel
Glass: Clear

Simplicity reigns with the Telan collection. A basic geometric shape gives each fixture its clean foundation, while the white-washed wood tone frame creates a weathered farmhouse feel. The effect is one that's reminiscent of the past, yet looks at home amongst modern décor.

DESIGN DETAILS

One element sure to add farmhouse appeal to any room is shiplap. Used as an accent, or on full or half walls, natural or painted, shiplap can unify a large space or add just the right amount of detail to a fireplace.

* = Kichler® products are not produced or associated with any Native American Indians, nor are they a Native American product or the product of a particular Indian, Indian tribe or Indian arts and crafts organization as defined by 25 U.S.C. §305 et. seq.

- Bulbs not included unless otherwise noted.
- Wattages stated are the maximum recommended; however, you may use lower wattage lamps to suit your lighting needs. Some recommended lamps are not available in the maximum allowable wattage.
- All electrical products are rated as 120-volt, AC unless otherwise noted.
- All electrical products are certified and listed to UL/CSA/ETL Standards for use in U.S.A. and Canada except where noted.
- All chain drop products equipped with at least 72" of chain unless otherwise noted.
- All products featured in the outdoor section are certified and listed to UL/CSA/ETL standards for wet location except where noted.
- Many long-life tungsten halogen capsule lamps are now available as alternates to conventional incandescent light bulbs. The halogen capsule lamps may be used to replace any lamp of a higher wattage, but not to exceed the existing specified maximum wattage, i.e., 72W may replace a 75W.
- On some products, in order to accommodate higher-than-normal ceiling height, extra lead wire is supplied and specified. With additional sections of chain or stems (not included), this allows an added measure of design flexibility.
- Finishes for fixtures installed outdoors are subject to change due to prolonged exposure to sunlight, airborne pollutants, and other forms of weathering.
- To serve you better, Kichler reserves the right to make improvements to the products in this catalog. Therefore, some products may change during the life of the catalog and the product information contained in this catalog may also have changed.

Consumer Notice

Federal Legislation to phase out 100 watt Incandescent Bulbs started January 2012

The federal government enacted the Energy Independence and Security Act of 2007 in December 2007, requiring all general-purpose light bulbs that produce 310-2600 lumens of light be 30% more energy efficient (similar to current halogen lamps) than current incandescent bulbs by 2014. The efficiency standards started with 100 watt bulbs in January 2012 and will end with 40 watt bulbs in January 2014.

Light bulbs outside of this range are exempt from the restrictions (historically, less than 40 watts or more than 150 watts). Also exempt are several classes of specialty lights, including appliance lamps, rough service bulbs, 3-way, colored lamps and plant lights.

By 2020, a second tier of restrictions will become effective; which requires all general-purpose bulbs to produce at least 45 lumens per watt (similar to current CFLs). Exempt from the Act are reflector flood, 3-way, candelabra, colored and other specialty bulbs.

Many governments worldwide have passed measures to prohibit the sale of incandescent light bulbs for general lighting. The aim is to encourage use of more energy-efficient lighting alternatives, such as compact fluorescent lamps (CFLs) and LED lamps.

We go to great lengths to assure the metal and glass finishes shown in the catalog match the actual products, but printing variations and variations in chemical finishes and the nature of hand-applied finishing will cause some differences between the printed images and actual product, and from one product to another.

We use only non-ferrous materials on the exterior parts of our outdoor lantern products, and use the best available weather-resistant finishes. However, due to some extreme environmental conditions such as acid rain, salt air and ultraviolet exposure, we cannot guarantee our exterior finishes, with the exception of our LifeBrite® lanterns.

Due to environmental conditions such as soil acidity, concrete alkalinity and other corrosive soil and air conditions, we cannot guarantee our direct burial posts.
