

Eiffel Tower Viewing Deck Fact Sheet

OVERVIEW:

Rise above the frenzy of the Strip at one of Las Vegas' premier attractions with amazing views. An icon of the city skyline, the high-altitude attraction is located 46 stories up and is a half-scale replica of the world-famous Paris, France landmark. The viewing deck features 360-degree city views and knowledgeable Ambassadors point out Las Vegas landmarks. The views of the bright, colorful lights are unmatched.

FACTS:

- **Height:** 541 feet, 164.6 meters
- **Weight:** 5000 tons of welded steel
- **Cost:** \$28 Million
- **Opened:** September 1, 1999
- **Construction time:** 18 months

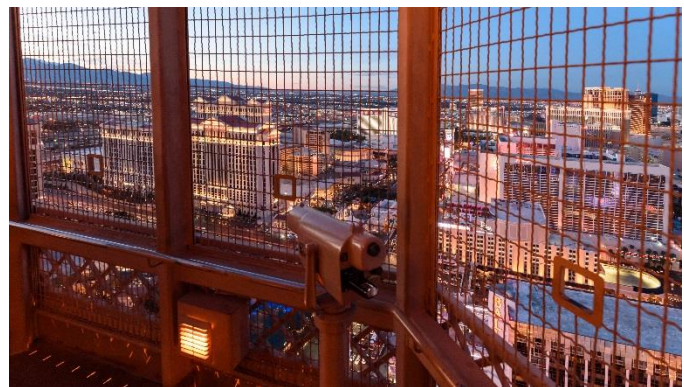

HISTORY:

Ground broke for the Eiffel Tower Viewing Deck at Paris Las Vegas on April 17, 1997. It officially opened September 1, 1999. When the scale model of the Eiffel Tower was built, it was planned to be full scale, but the airport was too close and the tower had to be shrunk. The scale is approximately one half. The Eiffel Tower is 541 feet tall, 164.6 meters. It is made up of 5000 tons of welded steel and is tallest replica of the original Eiffel Tower to date. The observation deck stands at 460 feet high. A custom designed crane, the largest in the United States, was needed to assist in construction. It cost \$28 million to construct the half scale replica of the original and took 18 months to complete.
