

# LG UltraGear™ Curved Nano IPS 1ms Monitor

**Product Name:** LG UltraGear™ (38GN950)

**Canadian Price and Availability:** Available at select LG retailers across Canada. Check your local retailer for pricing.

## *Take your gaming experience to the next level*

Complete your battle station with a premium LG UltraGear™ 38-inch UltraWide™ QHD Curved Monitor. Built for esports, it delivers the latest hardware, specs, ergonomics, sleek design and sensory experience.

### **NVIDIA® G-SYNC**

- This monitor supports NVIDIA® G-SYNC® an advanced display technology that synchronizes refresh rates to the GPU inside GeForce GTX-powered PCs, eliminating screen tearing and minimizing stutter and input lag for a smooth gameplay experience.
- It is certified by NVIDIA® through over 300 tests for performance and image quality to provide a great gaming experience.

### **Bring Games To Life with Nano IPS with VESA DisplayHDR™ 400**

- More accurate colours and a broader contrast ratio delivers a truly high-end picture quality.
- The 38-inch UltraGear™ features a curved Nano IPS display, high screen resolutions (3840 x 1600) and a VESA DisplayHDR™ 400 that covers 98 per cent of the DCI-P3 colour space (the film industry standard) while showcasing more accurate colours and broader contrast ratios.

### **1 Millisecond (ms) 1 IPS Display**

- The LG UltraGear™ 38" Nano IPS G-SYNC compatible gaming monitor includes 1 millisecond (ms) Nano IPS with QHD+ Resolution.
- LG UltraGear™ Nano IPS monitors feature fast 144Hz refresh rate, overclockable to 175Hz and high screen quality to provide gamers flicker-free detailed images.

### **QHD+ Resolution for Gaming**

The 21:9 ratio combined with the curved screen is the perfect combination to ensure you're fully immersed in every game. Take advantage of this UltraGear™ QHD+ (3840x1600) monitor's outstanding clarity and hyper realistic picture to see your way to victory.

### **Game in Style and Comfort**

Enhance your gaming experience with eye-catching design, improved V-wing stand and virtually borderless design. The base can be adjusted to change the tilt and height of the monitor to help you game more comfortably. And, the Sphere Lighting lights up in sync with gaming action to create an ambient effect around your gaming station.
