Reshape Your Senses with the LG VELVET™ 5G

LG Electronics Canada's visually stunning LG VELVET™ 5G is reshaping the mobile experience with stylish design and outstanding performance.

Prepare to Command Attention

The LG VELVET™ 5G stands out from other devices due to its smooth and polished surfaces, stylish colours, and refined design.

- **3D Arc Design:** Characterized by flowing lines, curved corners and symmetrical front and rear edges, the LG VELVET™ 5G is elegant and can fit perfectly in one hand.
- **New Camera Design:** A unique water drop-inspired camera features a slim-line ergonomic design for a smooth and refined premium look.
- **Bold Colours:** Available in Aurora Gray and Illusion Sunset, the LG VELVET™ 5G will compliment anyone's style.

Stay Charged, All Day

- With a **4,000 mAh battery**, the LG VELVET™ 5G will last all day - up to nine straight hours of multimedia use on one charge.
- The **AI Smart Battery Algorithm** automatically adjusts display settings and app usage, so users get more out of their phone.
- The LG VELVET™ 5G supports **cordless charging** for added convenience.

Immersive Content Experience

- The LG VELVET™ 5G is packed full of features to ensure users get the most out of their mobile experience.
- The **6.8-inch P-OLED Cinematic FullVision** display provides a cinematic experience taking streaming to new heights.
- Users can take advantage of a fully immersive audio experience with an **AI 3D Sound Engine** that automatically adjusts sounds settings based on what is playing, for a truly optimized audio experience.

Future-Proof with 5G

- The LG VELVET™ 5G ensures users are equipped with the latest in 5G technology, so they stay ahead of the curve.
- Outfitted with a **Qualcomm Snapdragon 765G chipset**, the LG VELVET™ 5G delivers lightning-fast speeds in a lightweight and durable package.

Exceptional Sound Capabilities

- The LG VELVET™ 5G features a **3D Sound Engine** and **Stereo Speaker** so users hear every detail with precision and crystal-clear quality.
- Perfect for content creators, **ASMR Recording** utilizes the LG VELVET™ 5G's two highly sensitive microphones to capture ultra-detailed sound.
- **Voice Bokeh** allows users to create professional-level content, by taking videos that focus on the subject and minimize background noise.

Perfect For Content Creators

See every detail, no matter how small with the **48MP high-resolution** camera and **LED flash**. The LG VELVET™ 5G is built with innovative camera technology so users can capture images with pristine quality.

- Capture the perfect photo, any time of day with **AI Night Mode**. This feature detects low-light scenes and auto-adjusts to capture brighter photos.
- For the selfie lover, the LG VELVET™ 5G comes with **3D Arc Sticker** effects to add whimsy to any photo.
- **Steady Cam** reduces unwanted motion for smoother-looking video.
- Built-in **AI Timelapse** allows users to take unique videos at any speed. Users can adjust speeds during filming, to create the perfect time-lapse video.
