

## Decora Smart® Wi-Fi® 2nd Gen Motion Sensing Dimmer

Leviton's Decora Smart Wi-Fi Motion Sensing Dimmer combines two leading lighting control functions – sensing and dimming – into one device for hands-free lighting control in basements, kitchens, pantries, hallways, closets, garages, staircases, bathrooms, home offices, and more. With easy setup via the My Leviton app, the dimmer includes new features like Room Occupancy Response, Night Settings, Motion Snooze and more.

Leviton's New Decora Smart Wi-Fi 2<sup>nd</sup> Gen Motion Sensing Dimmer

- For hands-free control and to save energy, the Decora Smart motion sensing dimmer can be set to turn lights on when motion is detected and the room is occupied, and to turn lights off when the room is unoccupied
  - Provides full range dimming performance for dimmable LED, CFL and Incandescent light bulbs and magnetic low voltage lighting
  - Built-in sensor with up to 180-degree field-of view, 900 square feet of major motion coverage, supports both Occupancy and Vacancy sensing modes
  - Motion sensor and dimmer settings are easily configured through the My Leviton app with no complex programming
  - Supports 3-Way/Multi-Location with Hardwired and Wire-Free Companions
- Motion control features are easily configured through the My Leviton app:
    - **Ambient Light Sensing** – prevents lighting loads from turning on if there is ample natural light in the room
    - **Night Preset Light Level** – automatically turns lighting loads on at a lower level for relaxed evening illumination. Ideal for kitchens and bathrooms
    - **Built-in Guide Light** – softly illuminates a space in the dark, like bathrooms and walk-in closets, eliminating the need to turn lights on
    - **Motion Snooze** – temporarily disables motion detection for a pre-defined period of time; ideal for use when watching movies or sporting events
    - **Room Occupancy Response** – unique feature used to turn other Decora Smart Wi-Fi devices in a room ON/OFF simultaneously based on motion

## Part of the Decora Smart & My Leviton Product Portfolio

The Decora Smart Wi-Fi 2<sup>nd</sup> Gen Motion Sensing Dimmer is part of Leviton's award-winning Decora Smart Wi-Fi product line that gives homeowners control over their connected devices from anywhere, at any time. Through seamless integration with the My Leviton App, users are able to create a whole home Wi-Fi lighting experience by combining devices, creating room scenes, customizing lighting settings such as fade rates, and enjoying convenient remote control of devices and activities. Homeowners can also pair their Decora Smart Wi-Fi devices with leading voice assistant devices, including Amazon Alexa™, Hey Google™, and Apple HomeKit™/Siri®, for even more convenient control of their lights, ceiling fans, small appliances, locks and more.
