In its fifth year, the 2015 Global Entrepreneur Indicator (GEI) is a twice-yearly gauge of the near-term global economic outlook that delivers data on job creation, profit outlook and access to capital, among other key metrics. The Entrepreneurs’ Organization’s March GEI—taken by 5,868 leading entrepreneurs—reveals the current state of 46 countries’ business landscapes and economic health, among other statistics designed to identify economic trends, drive fiscal growth and strengthen communities.
