

EO Global Entrepreneur Indicator

U.S. EDITION March 2015

In its fifth year, the **2015 Global Entrepreneur Indicator (GEI)** is a twice-yearly gauge of the near-term global economic outlook that delivers data on job creation, profit outlook and access to capital, among other key metrics. The U.S. sampling of the Entrepreneurs' Organization's March GEI—taken by 2,500 leading entrepreneurs—reveals the current state of the U.S. business landscape and the country's economic health, among other statistics designed to identify economic trends, drive fiscal growth and strengthen communities.

JOB CREATION

Entrepreneurs indicate increase in full-time staffing levels

REVENUE

ECONOMICS

90%

Entrepreneurs cite willingness to start a new business in the current economic environment

ACCESS TO CAPITAL

Respondents report increased funding opportunities during past six months

PROFIT OUTLOOK

Business owners overwhelmingly optimistic in capital surpluses in next six months
