Update on Taped Interviews for Media Tours

Due to the plethora of tours happening in Q4, taped airings may be delayed longer than usual.

We are making every effort to obtain accurate airdates in advance when pitching, during as well as post tour. Additionally, producers/stations will at times have a backlog of taped content, so we will make every effort to encourage stations to air as promptly as is possible as well as prior to specific milestones (within awareness months, prior to Christmas, Thanksgiving and end of the year) depending on the topic.

The Media Relations team is diligently following up on all airdates and will continue to share updates as we secure them.

To raise awareness, inspire action and help domestic violence victims and their pets find safety together, we helped the Banfield Foundation release their new PSA

Featuring football champion, Russell Wilson and his dog Naomi, the PSA has already garnered over 15.7 million radio and 56.6 million television impressions since July.

Guests were transported to Batuu at Disney's Hollywood Studios in Florida with the grand opening of *Star Wars: Galaxy's Edge.* The new attraction immerses visitors with the sights, sounds, smells and tastes of the Star Wars universe – guests can even take control of the galaxy's most famous ship at *Millennium Falcon: Smugglers Run.*

Despite going up against the latest Hurricane Dorian news, through MultiVu's curated media notification list targeting news desks and entertainment reporters, the attraction's opening received multiple mentions on national networks and in top markets including New York, Los Angeles, Chicago, Philadelphia and Dallas.
