

Guy's Grocery Games *Challenge Descriptions*

5 Ingredients Or Less

This game will challenge the chefs to strategize and create a dish sure to impress the judges using only five ingredients or less.

Bag Swap / Mixed Bag

Chefs are told the dish they need to cook, but the ingredients all have to fit into the shopping bag Guy gives them before they shop. They have three minutes to get all their shopping done and when they return to their cooking stations, Guy reveals the real twist in the game. He swaps the chef's grocery bags for them to cook with new ingredients.

Budget Battle

This game is about shopping on a budget and the pain and ingenuity that comes along with it. Chefs will have 30 minutes to make a dish for four with a limited budget. They will have to use their limited funds wisely, relying on coupons, specials and their small budget to create a dish that will give them the most bang for their buck.

Can Can

Chefs are challenged to make an incredible dish that will express their expertise in the kitchen - using only canned foods.

Closing Time

This game is about strategy and quick thinking. Chefs will have 30 minutes to cook their favorite dish. However chefs will only have a few minutes to shop for their ingredients.

Frozen Feud Food

Ingenuity will pay off in this game where the chefs are challenged to create a dish using only ingredients found in the frozen food section.

Grocery List

Chefs will get an unusual grocery list in which they must create an imaginative dish using all ingredients on their list.

No Carts Allowed

Chefs get one trip and 30 minutes to gather ingredients and cook their most spectacular dish. Whatever they can carry in their hands, balanced under their chins, under their arms or in their mouths they can use. If they drop an item it automatically becomes out of play, and they must go back and pick up another one if they want to use it.

Out of Stock

Chefs will have 30 minutes to make a classic dish specified by Guy Fieri, but when they rush to the aisle they'll find the essential ingredients are out of stock. Chefs will have to substitute and improvise on the spot in order to come up with a great interpretation of the dish.

Single Aisle Showdown

Guy will challenge the chefs to create a dish... the twist? They can only use the ingredients gathered from one aisle.

Super Shopping Spree

There is only one chef last standing at the end of the challenges, and this game will give them the chance to win up to \$20,000 in 2 minutes if they can gather all the items on Guy's List. Each item they check off the list and get into their carts is worth \$2,000!
