Intermedia.net/RogueAccess:

- Two other methods for preventing Rogue Access: a business-grade file sync and share service

About Intermedia Intermedia's Office in the Cloud offers email, phone service, file sync and share, single sign-on, archiving and more. They're all fully integrated, secure and mobile. And they're all managed through our central HostPilot control panel.

Our services thwart the ex-employee menace by making it simple to revoke access to the entire cloud
