

Don't let student loan debt put your dreams on hold

Manage your debt. We'll show you how.

Defaulting on your student loans is never a part of the plan, but it happens — a lot. Nearly one in every seven recent graduates will default on their student loans within three years of graduation, doing catastrophic damage to their credit and future financial stability. It doesn't have to be that way.

Student loan counseling from Money Management International can help you:

- Understand who you owe and how much you owe;
- Assess your options, including available repayment plans, deferment, forbearance, forgiveness, and more;
- Take the appropriate action to balance your debts and your goals;
- Explore ways to rehabilitate student loans that have gone into default; and
- Create a monthly budget you can live with.

You've worked too hard to gain your education and degree; don't let your student loan debt slow you down now.
