

Megan M.

Megan M., from Las Vegas, Nevada, was the winner of Eisai’s “Search for the Next Medikidz Star” contest in 2014. As the star of the third comic book in the “Medikidz Explain Epilepsy” series, Megan shares her personal experiences living with epilepsy. Diagnosed with epilepsy at age 14, Megan has spent the last few years connecting with, and advocating for, others living with the condition through her vlog and social media network. Now, as the star of “Medikidz Explain Living With Epilepsy,” Megan is eager to use her comic book as another channel to share her epilepsy journey and encourage others to do so as well.
