

CORDLESS FAMILY

Advanced Technology. Cordless Convenience.

The Hoover® Cordless family uses interchangeable LithiumLife™ Battery Technology to give you powerful, cordless freedom to clean with ultimate convenience. Choose from a full-size upright for whole-home¹ cleaning, an upright with detachable canister for ultimate above floor cleaning, a high-performance stick and hand vac for quick pickups and a hard floor cleaner that washes, scrubs and dries sealed hard floors – all without the hassle of a cord.

Powerful Cleaning without the Cords

Hoover's new cordless collection gives you the freedom to clean any area without compromise. No more plugging then unplugging, unwinding then rewinding a cord. No cord. No problem.

Powered by LithiumLife™ Technology

Hoover® uses advanced LithiumLife™ Battery Technology to give you great options and convenient solutions to clean your home. The Extended Runtime LithiumLife™ batteries have double the capacity of our standard 18 volt lithium ion batteries². That means a longer runtime with fade-free power. The new advanced charger monitors the temperature and battery level, for exceptionally smart charging between uses.

Interchangeable Battery System

Interchangeable battery convenience makes it easy to keep your LithiumLife™ battery-powered products running with confidence. The interchangeable system gives you the ability to use the same battery to power every cleaner in the new line and the option to clean with one battery while another one charges.

WHY HOOVER?

Get everything you would expect from Hoover® and more — sleek lightweight designs, engineered for ultimate usability and exceptional performance through Hoover® innovation.

1 battery system; 5 innovative cleaning solutions

Air™ Cordless Handheld Vacuum
A high powered cordless hand vac for small, stubborn messes.
