

Tommy John®

Fall | Winter 2016  
Lookbook

**We utilized the most  
innovative fabrics and  
re-engineered  
designs to give men  
the final word in comfort.**

Pushing fabric technology to its limits, our smart fabrics speak to men and their contemporary experience. Travel, work, downtime and gym time are all covered.

# Cool

## Cool Cotton

### Designed for Daily Wear.

Our Cool Cotton collection uses an exclusive, breathable smart fabric that wicks away moisture to dry fast and cool quickly. Keeps you 2-3x cooler and dries 4-5x faster than normal cotton. Less sweat, more confidence.

# Soft

## Second Skin

### Designed for Daily Wear.

Constructed from an exclusive, non-pilling micro modal fabric that's sourced from Beechwood trees. So soft and luxurious it's like you're not wearing anything at all.

# Light

## Air

### Designed for Daily Wear + Travel.

Minimal weight and maximum breathability make our Air selections essential for frequent fliers. Our quick dry technology allows for items to be rinsed in a sink and worn again in less than 4 hours. The perfect travel companion that truly respects your personal space.

# Move

## 360

### Designed for the Gym + Performance.

Our 360 stretch fabric ensures your underwear won't ride up when you work out, but still remains supportive in all the right places. Mesh cooling zones, anti-microbial and anti-odor technology keep you dry and fresh.

# Warm

## SleekHeat

### Designed for Cold Weather.

Indoors or out, our Warm fabric provides serious functionality for colder climates. It absorbs body moisture, and converts it to body heat, helping to regulate your temperature – whether you're up a mountain or just downtown.

# Our Styles
