WHAT IS THE ARTISTRY SUPREME LX™ COLLECTION?

From the minds and imaginations of Artistry™ science comes our advanced new generation of Luxury skincare that forever changes the face of beauty. Artistry Supreme LX™ Regenerating Cream and Artistry Supreme LX™ Regenerating Eye Cream empower skin to act up to 15 years younger, virtually erasing visible signs of aging.

WHAT MAKES THE ARTISTRY SUPREME LX™ COLLECTION UNIQUE?

Artistry™ scientists developed exclusive formulas:

Gardenia Grandiflora Stem Cell Extracts:

Due to their extraordinary regenerative powers, an exclusive biotech process was invented to distill the stem cells into a pure, stabilized and powerful elixir to help synchronize skin’s youthful biorhythms and energize the skin.

CellEffect24 Complex:

To amplify the effects of the Gardenia stem cell elixir, Artistry scientists invented the next-generation CellEffect24 Complex, opulently enriched with 24K gold, plus precious Cardiolipin. Skin vitality is recharged and, from deep within the skin’s surface, a comprehensive rejuvenation transpires.
