

**STAR WARS: THE FORCE AWAKENS  
ORIGINAL MOTION PICTURE SOUNDTRACK  
FROM OSCAR®-WINNING COMPOSER JOHN WILLIAMS  
TO BE RELEASED ON NEW DOUBLE GATEFOLD VINYL JUNE 17**

**LPs FEATURE ONE-OF-A-KIND 3D HOLOGRAMS OF THE  
MILLENNIUM FALCON AND TIE FIGHTER**

**PRE-ORDER AVAILABLE TODAY**

Burbank, CA – May 25, 2016 -- Walt Disney Records is set to release a new hologram vinyl version of the original motion picture soundtrack for *Star Wars: The Force Awakens*. With score conducted and composed by five-time Academy Award®-winning composer John Williams and liner notes by the film's director, J.J. Abrams, the double LP features a 16-page booklet on 180 gram vinyl. This one-of-a-kind vinyl set, hand etched by Tristan Duke (Jack White's *Lazaretto*) of Infinity Light Science, offers a 3D hologram experience featuring the Millennium Falcon on Disc 1/Side B and a TIE Fighter on Disc 2/Side B. For optimal viewing, use a direct light source or simply hold a mobile phone flashlight above the vinyl to view the holograms.

Tristan Duke founded Infinity Light Science in 2008, a research laboratory with an emphasis on laser holography, interferometry, light-field imaging, hand-drawn holography, and relativistic imaging.

The must-have vinyl album also features Direct Metal Mastering (DMM) for an optimal listening experience. Disney Music Group has joined forces with Pro-Ject Audio Systems to showcase this unique, next-level advancement in holographic vinyl technology with the Elemental turntable, a combination of minimalist design and maximum performance from the world leader in high fidelity turntables. The two brands will collaborate on co-promotions at retail, online, and radio.

The *Star Wars: The Force Awakens* 2-LP hologram soundtrack will be available on June 17, 2016 at Disney Music Emporium, the destination for collectible Disney music products. The vinyl set is available for pre-order beginning today, at [www.disneymusicemporium.com](http://www.disneymusicemporium.com) and also at Amazon <http://smarturl.it/swamhv1>.
