

Premier Soft Core Colored Pencils

The Prismacolor Premier Soft Core Colored pencils have thick cores that brilliantly produce saturated color and create a wide range of values. Create vivid colors in one stroke and subtle hues in the next.

Prismacolor Premier 005 Illustration Marker

This fine tip marker offers unrivaled precision and control that is ideal for lettering, outlining, detail work and free form drawing. The Prismacolor Premier 005 Illustration marker is made with premium pigments that are permanent and smear resistant when dry. The acid free, archival ink means that lasting works of art and design can be created.

Use the colorless blender as a steering tool to smooth color and value transitions and blend pencil strokes together.

Metallic colors can be used to accent parts of your artwork, to elevate it to the next level.

Gradation Technique

Increase or decrease the intensity of any pencil just by varying the pressure you exert on the drawing surface.

Prismacolor Premier Sharpener

The Prismacolor Premier Sharpener is specifically designed for Prismacolor colored pencils. Equipped with separate blades for sharpening wide and thin points, transparent body allows you to see when the sharpener is full. Easily removable lid keeps shavings inside.

Complimentary Colors

Create a color pallet by choosing Prismacolor Soft Core pencils that compliment each other.
