## Krazy Strong, Krazy Fast

Krazy Glue® provides you with the fastest bond needed to instantly make, create and do crazy things. Just a single drop of Krazy Glue can hold up to 2,000 pounds and takes just 30 seconds to dry. The product’s superior speed and strength is a must-have for DIYers and crafters embarking on household repairs or home improvement projects.

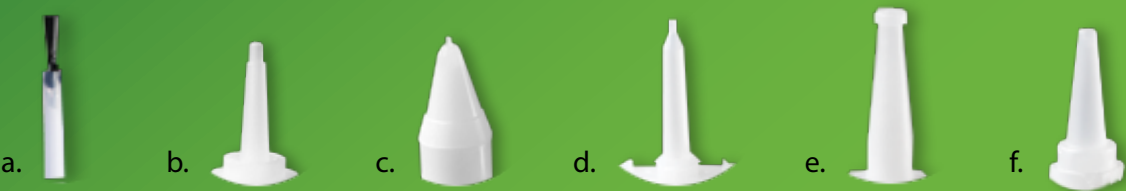

## How does it work?

Krazy Glue is available in a wide assortment of instant adhesives for multiple applications with an all-purpose formula that bonds to a variety of surfaces including wood, ceramics, leather, rubber, metal, plastic and vinyl. Working best on a clean, dry area, squeeze one drop per square inch of surface and hold for 30 seconds. Store in a cool, dark place.

## Krazy Glue is available in six different applicators

Each applicator provides ease of use and maximum control for the best results.

- |                         |                              |
|-------------------------|------------------------------|
| (a) Brush-on applicator | (d) Precision tip applicator |
| (b) Gel applicator      | (e) Single-use applicators   |
| (c) Pen applicator      | (f) Self-piercing nozzle     |

## Fun facts!

- In 1968, a chemical company was testing new glue formulas and one stuck so well that the president exclaimed, “That’s some crazy glue!” And Krazy Glue was born.
- Krazy Glue has been helping Americans stick and fix just about anything since 1973!
- In the 2014 film, The Lego Movie, the legos are in search of the “Kragle,” a character that turns out to be an old tube of Krazy Glue.
- In 2016, Krazy Glue will make its debut in the Macy’s Thanksgiving Day Parade with the Fun House float.
