

PROGRESS IN TREATMENT: MENTAL ILLNESS

Mental illness takes a heavy human and economic toll in the United States.

IN FACT, 43.4 MILLION AMERICAN ADULTS EXPERIENCE MENTAL ILLNESS IN A GIVEN YEAR

9.8 MILLION
AMERICAN ADULTS

Had a serious mental illness
within the past year

20%
OF CHILDREN AGES 13-18

Have had a debilitating
mental illness

\$300+ BILLION

Annual direct and indirect
costs of mental illness to
the U.S. economy

Over the past century, biopharmaceutical research has helped transform this misunderstood set of diseases into highly treatable conditions. **145 MEDICINES ARE IN DEVELOPMENT TO TREAT MENTAL ILLNESS DISORDERS**, including the following:

ANXIETY

Lifetime prevalence rates
are 28.8% of U.S. adults and 25%
of adolescents

ATTENTION-DEFICIT & HYPERACTIVITY

4% of U.S. adults and 9% of
adolescents are affected

DEPRESSION

6.7% of adults and 12.5% of
adolescents are affected

SCHIZOPHRENIA

Approximately 1% of
U.S. adults are affected

SUBSTANCE ABUSE AND ADDICTION

Nearly 29 million Americans aged
12 and older – or 10.6% of the
population – have reported using
an illicit drug in the past month
