

Better Health *for* a Better World®

Founded nearly 60 years ago, Mylan today is one of the largest and most unconventional pharmaceutical companies in the world. We believe we can help provide better health for the world's 7 billion people through increased access to high quality medicine, innovative research and development, passionate leadership on matters of public policy, and generous support of the communities where we live and work.

Mylan in the U.S.

Mylan's roots are in the U.S., and our products can likely be found in most American homes. In 2016 alone, our generics saved the nation's healthcare system approximately \$25 billion. As for manufacturing, a majority of the doses we sell in America are manufactured in America.*

*Manufactured from domestic and imported components.

Better Health for a Better West Virginia™

Mylan's Continued Impact Across the Mountain State

Mylan was founded in 1961 in White Sulphur Springs. In 1965, the company relocated to Morgantown, where its operations in the state remain based. The company's impact on West Virginia today is significant and wide-ranging, as measured by its effect on the state's total gross domestic product; number of jobs supported; and influence on local healthcare, education and charitable institutions.

Supporting the West Virginia Economy¹

¹Based on a 2014-2016 Community Economic Impact Analysis in West Virginia conducted by **J.D. Power** for Mylan.

**Nearly 1
in every 130**

WV worker is paid or supported by Mylan investments in the state

~\$5B
