New Exterior Lighting Collections from Kichler® – A True Extension of Consumers' Indoor Living Spaces

- Versatile new line features oversized fixtures and focuses on outdoor living -

INDEPENDENCE, OHIO (January 9, 2018) – Kichler,® a leader in innovative lighting, continues to bring the indoors outside with an expansive offering of new exterior fixtures. Ranging from updated traditional to on-trend vintage industrial designs, the 2018 line includes outdoor chandeliers and integrated LED fixtures. No detail is overlooked—style or quality—to provide superior lighting and numerous options for today's discerning homeowners.

“Demand for additional exterior lighting design choices continues to grow,” Tia Bahr, senior product manager, Kichler. “Our new exterior fixtures—with a wide array of finishes, styles and sizes—help consumers make the outdoors a true extension of their indoor living spaces.”

Key products from the 2018 Kichler outdoor line include:

Leaded-glass window panes provide the inspiration for **Bay Village's™** time-worn style. Clear-seeded glass mirrors the look of vintage glass, for a beautiful addition to houses of any age – from century homes to new construction. This updated, traditional collection includes three sizes of wall lanterns, a post and a pendant, and is available in a Weathered Zinc finish.

With a simple ironwork structure, **Mill Lane** borrows its style from the classic lanterns found in America's western and coastal towns at the turn of the century. Clear-seeded glass adds to the vintage look.

Mill Lane is available in three sizes of wall lanterns, a pendant, post, and flush mount, and features an Anvil Iron finish.

A corrugated back plate with a galvanized steel finish adds a rustic feel to the **Wayland** collection. Inspired by vintage steel cans and doors from the 1950's, the all-metal housing stands up like a modern-day champ.

Wayland includes three sizes of wall lanterns, a semi- and flush mount and features a Weathered Zinc finish.
