

LG InstaView™ Door-in-Door® Refrigerator with Craft Ice™

Product Name: LG InstaView Door-in-Door® Refrigerator with Craft Ice™ (LRFVS3006S)

Canadian Price and Availability: Available at select LG retailers across Canada. Check your local retailer for pricing.

Redefining the art of home entertaining

There's no need to rummage in your fridge thanks to LG's iconic InstaView glass door panel. Knock twice on the glass panel to illuminate the interior and conveniently grab your favourite items.

Keep Produce Fresher, Longer

- Three innovative cooling technologies work together to extend the life of fruits and vegetables and help keep foods fresh and flavorful.
- Knock twice on the InstaView glass panel to see inside the easy access door-in-door compartment without opening the door, reducing cold air loss.
- CoolGuard™ metal interior panel wall helps maintain cold air while adding a premium look.

Save Trips to the Store with Expanded Storage

- The super-capacity 30 cu. ft. refrigerator provides more usable space, allowing for easy organization and fewer trips to the grocery store.
- Useful features like the hidden water filter and Slim SpacePlus® ice system free up valuable shelf space.

Tap into Smart Features for Everyday Use

- The LG ThinQ™ AI app enables users to remotely manage appliances on a smartphone or with voice commands with Amazon Alexa and the Google Assistant. Get alerts if the refrigerator door is left open, or start making extra Craft Ice™ ice on your way home.

Ice Three Ways, Plus Precise Water Dispensing

- The InstaView's dual ice maker produces not only LG's round Craft Ice™ in the freezer drawer, but also crushed and cubed ice for that perfectly chilled drink.
- The Craft Ice™ spheres measures 2 inches in diameter and the freezer drawer bin stores up to 25 spheres at a time.
- The ice & water dispenser can accommodate just about any bottle size. With the convenient Measured Fill feature, you can also dispense exact amounts of filtered water in ounces (4,8,16, or 32).
