

# LG TONE Free™ Wireless Earbuds

**Product Name:** LG TONE Free™ (HBS-FN6)

**Canadian Price and Availability:** Available at select LG retailers across Canada. For complete details on where to buy, pricing and retail locations, please visit [lg.ca](https://lg.ca).

## *Wireless audio technology reinvented*

The LG TONE Free™ is LG's first true wireless earbuds in the Canadian market. Built with Meridian technology for the best sound quality, LG TONE Free™ also has a unique UVnano charging case that can kill 99.9 per cent of bacteria on the earbud speaker mesh in 10 minutes while charging\*.

### **Exceptional Audio with Meridian Technology**

Meridian technology allows the earbuds to deliver an extra dimension of sound with Headphone Spatial Processing (HSP), powered by Digital Signal Processing (DSP) – a technology that Meridian has been perfecting for over 25 years. DSP recreates a realistic soundstage that will immerse the listener.

### **Stay Clean and Reduce Bacteria**

The LG TONE Free™ UVnano charging case is [UL Verified](#) that the ultra-violet light can reduce bacteria on the earbuds' speaker mesh by 99.9 per cent during the powered charging cycle.

### **Enhanced Audio Experience**

From music to podcasts, the LG TONE Free™ headphones ensure you get the most out of your audio experience. Standout features include:

- **Enhanced durability and usability:** Built to last – it is rated IPX4 for protection against splashing water, rain and perspiration while working out.
- **Ease of Use:** Use Google Assistant or Siri on a connected smartphone, and they also offer intuitive touch commands to allow you to play, pause, skip and control the volume level without reaching for the phone.
- **Ambient Sounds Mode:** Gives the user the ability to hear what is going on around them with the press of a button eliminating the need to remove earbuds when interacting with the outside world.
- **Fast and Wireless Charging:** The UVnano wireless charging case can offer up to one hour of music playtime with a five-minute charge and when fully charged up to 18-hours of playtime.
- **Earbud Finder:** With Bluetooth technology, easily locate lost earbuds – the missing earbuds will beep sound when you press play in the LG TONE&TALK App.

\*Independent testing shows the UVnano charging case kills 99.9% of bacteria on the speaker mesh of the earbuds in ten minutes while charging. The UV LED function works only when the charging case is connected to the power cable.
