

# Dr. Lisa's List for a Joy-filled Fall

-  • Plan a pumpkin patch outing – call ahead to make sure it's pet-friendly first.
-  • Coordinate the ultimate Halloween costume with your dog or cat – avoid costumes that pose potential hazards such as buttons that could be ingested.
-  • Leash up for fall hikes – the crisp air is a refreshing way to get in some physical activity together.
-  • "Petflix and chill" – what's better than cuddling up for a night in with your cat or dog? Popcorn for you and pet-safe treats for them!

**Don't forget – flea and tick protection is important year-round. After an outing, it's a good habit to search your pet for ticks ([see the how-to here](#)).**

**Talk with your veterinarian about preventative products that work best for you and your pet.**
