

Swiss Travel System – Switzerland by train, bus and boat.

Switzerland comprises the densest public transport network in the world. It extends for more than 26,000 captivating kilometres, linking city centres, tiny tucked away villages, mountain resorts and lakes. Exclusively for travellers from abroad, the Swiss Travel System offers visitors the opportunity to discover the many diverse delights of the country by road, rail and waterway. And with just a single all-in-one ticket – the Swiss Travel Pass.

Vacation visitors to Switzerland can benefit from the Swiss Travel System the minute they set foot in the country. Comfortable direct connections from neighbouring foreign countries are offered. And at frontier railway stations and airports, trains and/or buses are ready and waiting to take passengers to Swiss city centres, holiday destinations and even snow-capped summits rising to 3800 metres. Public transport services are planned to perfection. Regular, reliable and coordinated connections are assured, guaranteeing trouble-free travel nationwide. Whether visitors stay for only a few days or for longer duration, a special ticket is available to meet their specific travel requirements. The Swiss Travel Pass covers the popular panorama trains such as the Glacier Express, Bernina Express, GoldenPass Line and Wilhelm Tell Express – spectacular scenic trips which never fail to fascinate the vacation visitor.

Grand Train Tour of Switzerland – a unique travel experience.

The year 2015 saw the launching of the Grand Train Tour of Switzerland, linking the most attractive panorama rail routes across the country and highlighting selected excursion options. The tour can be enjoyed all-year-round, and passengers may start their journey of discovery from any point; there is no pre-determined direction or duration. This trip too can be travelled with the all-in-one Swiss Travel Pass. Further information: SwissTravelSystem.com/grandtraintour
